

Save the Date!

UNM Brain & Behavioral Health Annual Research Day

The UNM Brain & Behavioral Health Institute (BBHI) invites you to join us at our upcoming event. A BBHI signature event designed to foster multi-disciplinary collaboration in brain and behavioral health research and to engage community organizations and community members with current research in New Mexico. At this time, this year's event will be in-person with options for remote viewing.

Friday, April 8, 2022

9 am to 4 pm

Domenici Center

All are welcome!

Registration is free and opens mid-February!

Important Dates

February 14

Registration & Abstract Submission Opens

March 25

Deadline to submit an abstract

April 8

Event Day

Poster Session

Community Organizations, UNM Faculty, Staff, Students, Postdoctoral Fellows and Residents are encouraged to participate.

Students, postdoctoral fellows, residents & other trainees and community organizations are eligible for the “opt-in” competition part of the poster session. For academic research posters: three monetary awards will be given among three categories (basic science, clinical research & population health). \$500 first place, \$250 second place, \$125 third place. For community organizations, a \$250 award will be given to two finalists.

Keynote Presentation

Keynote Speaker

Michael E. Hasselmo, D.Phil
Professor, Department of
Psychological and Brain Sciences,
Boston University

Dr. Michael E. Hasselmo will talk on cholinergic theories of memory dysfunction in model system and clinical setting.

Afternoon Session

UNM Resource Showcase in brain and behavioral health research

Showcase of resources at UNM on pre-clinical and clinical cores, and successful community-based research. Small group discussions will provide a unique opportunity for New Mexico community members and UNM-HSC faculty, staff, and students to interact and exchange experience and priorities.

COVID-19 Safety Precautions

At this time, we are planning hold this event in-person. UNM requires visitors to comply with all guidance set forth by the CDC and state, including but not limited to social distancing, screening measures, hygiene practices, provision of personal protective equipment for all visitor personnel on UNM's campus, and education of all visitor personnel regarding CDC and state guidance on prevention and compliance.
